Profile

Enthusiastic graduating with a degree in **Computer Science & Engineering** and a strong passion for **software development**. Proficient in **Java** and **Python** currently undergoing a **Full-Stack Java Development course** to enhance my technical skills. I have a solid to a dynamic team, applying my concepts and I am eager to contribute foundation in **algorithms & OOPS** problem-solving abilities in a collaborative environment.

Education

Annamacharya Institute of Technology and Sciences
present | Rajampeta, India
  AGREEGATE - **93.6%**

Sai Parameswara Junior College
2021 – 2023 | Jammalamadugu, India
  AGREEGATE - **94.9%**

Z. P High School
2021 | Veparala, India
  AGREEGATE - **98.5%**

Skills

- C Programming
- Java
- Python
- DSA

Tools

- Dev C++
- Excel
- Turbo C
- IDLE

Courses

AICTE Internship
- Currently undertaking Java and Python courses to enhance programming skills and knowledge in Data Structures and Algorithms (DSA), Object-Oriented Programming (OOPs) concepts, and problem-solving strategies.
- Actively applying theoretical concepts to practical problems, strengthening foundation in computer science fundamentals.

Certificates

edX - Davidson College
Completed DavidsonX_D008: Excel for Beginners course, demonstrating proficiency in basic Excel skills, including data management, formulas, and chart creation.

edX - IBM
Completed AI0131ENI: Introduction to Prompt Engineering course, gaining foundational knowledge in designing effective prompts for AI systems.

Strengths

- Adoptability and flexibility
- Self motivated
- Smart work
